About ACI

Alashrafy Group

The Group operates a diverse scope of complementary associated businesses that empower us to offer customers a one-stop arrangement for all their construction, development and asset administration needs. Our aptitude to create innovative, practical solutions for our clients is our strength. Alashrafy has proven competency in providing high-quality projects on time and within client anticipations and budget. Together with our customers, we deliver landmark projects that foster sustainable progress and grow economies.

Vision

To be leaders in the development of integrated solutions for construction, decoration, mechanical and electrical works for green buildings.

Mission

Our mission is to renovate the way buildings and communes are constructed and operated, which would pave the way to a healthier and sustainable environment that enhances our clients' quality of life.

About Picasso Wood Industry

Picasso history began in 1972 in Valencia, Spain when a company specialized in the design and execution of high-luxury decoration projects and then depended on Spanish factories and local workshops to carry out their work of execution.

After a thorough study, the decision was made to establish the first factory, dedicated to the execution of wood and furniture decoration work and the factory was officially opened in 1978. As Picasso continues to develop, improve and expand in a long run it became

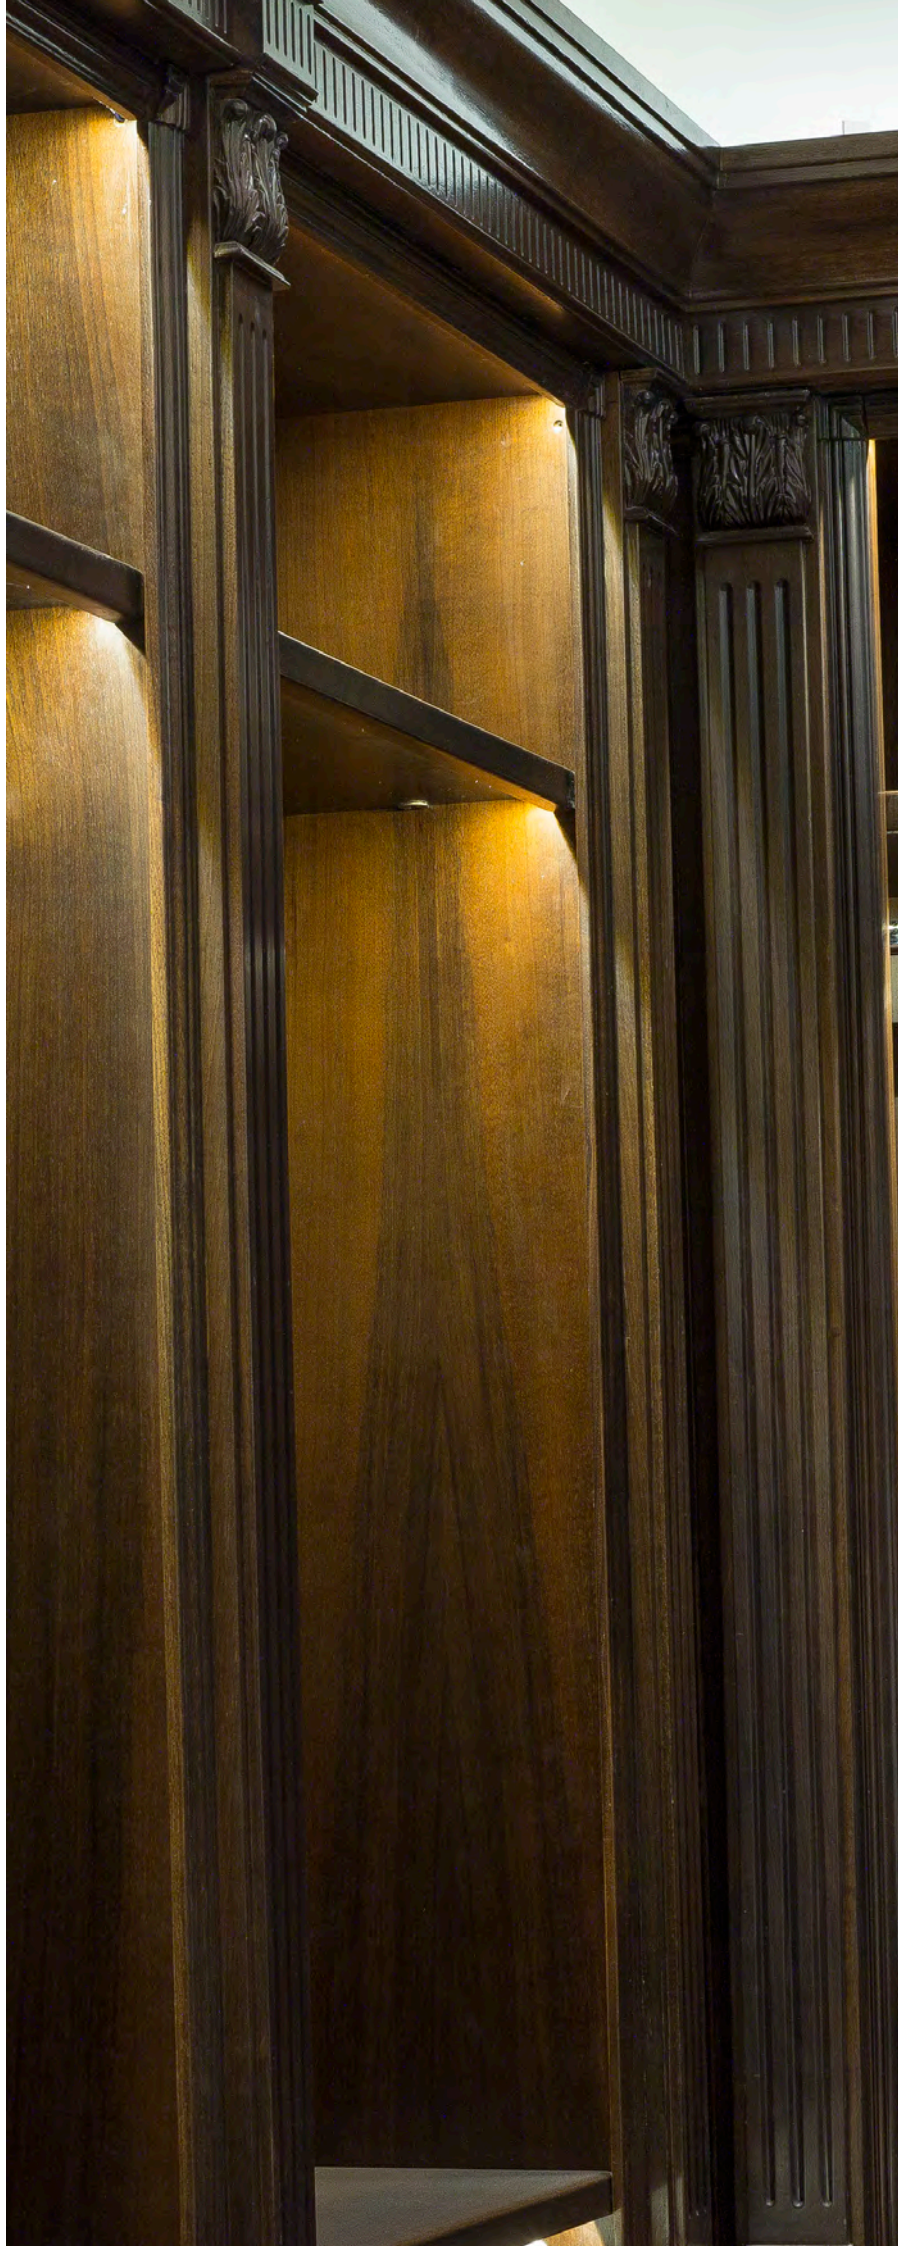

the largest factory in the country with an area of 80,000 m2 with its various production lines. Picasso was able to also penetrate the international market through exports mainly in Spain, France, Russia, Africa and the Gulf countries, until the brand became synonymous with quality and luxury.

In 2012, Picasso opened its branch in Turkey through the partnership with the well-known Al Ashrafy Group, investing heavily in extensive joinery production and technologies in a 45,000 m2 factory.

Method Statement for Production and Installation

Safe Work Method Statement

The contractor must complete a Safe Work Method Statement (SWMS) or equivalent prior to the commencement of any high-risk work.

Name of Contractor responsible for compliance with SWMS:		Date:	
Company name:		Workplace location:	
High risk job description		Completion of Confined Space Entry Permit?	Yes <input type="checkbox"/> N/A <input type="checkbox"/> (n/a should only be selected when not working in a confined space)
Personal Protective Equipment (PPE) required to complete the job			
 Gloves <input type="checkbox"/>	 Face mask <input type="checkbox"/>	 Eye protection <input type="checkbox"/>	 Welding mask <input type="checkbox"/>
 Appropriate footwear <input type="checkbox"/>	 Hearing protection <input type="checkbox"/>	 Protective clothing <input type="checkbox"/>	
What are the tasks involved? Describe the steps required to perform the task in the sequence they are carried out.		What are the hazards and risks? Against each step list the potential hazards that could cause injury/damage when the task step is performed.	
How will hazards and risks be controlled? List the control measure required to eliminate or minimise the risk of injury arising from the identified hazard, see Contractor Hazard Identification and Control Table .			

Safe Work Method Statement

What are the tasks involved? Describe the steps required to perform the task in the sequence they are carried out.	What are the hazards and risks? Against each step list the potential hazards that could cause injury/damage when the task step is performed.	How will hazards and risks be controlled? List the control measure required to eliminate or minimise the risk of injury arising from the identified hazard, see <u>Contractor Hazard Identification and Control Table</u> .	
Sign off	Name	Signature	Date
I have provided site-specific risk controls to manage the hazards identified above and will comply with the controls listed above.			

Safe Work Method Statement

Contractor:			
I understand the risk controls listed above will be implemented to manage the identified hazards associated with the works to be undertaken.			
Workplace Manager and/or Management OHS Nominee:			

Steps for filling out SWMS

1. Contractor to determine the tasks, and associated hazards, risks and controls.
2. In the 'What are the tasks involved?' column, list the work tasks in sequence to how they will be carried out.
3. In the 'What are the hazards and risks?' column, list the hazards and risks for each work task.
4. In the 'How will the hazards and risks be controlled?' column, select the hazard or risk and then work through the control levels 1 – 4 from top to bottom, as seen below. Choose a control measure (and how it is to be used) that is as close to level 1 as is reasonably practicable.

Control levels

1. **Eliminate** any risk to health or safety.
2. **Reduce** the risk to health or safety by any one or any combination of the following:
 - **Substituting** a new activity, procedure, plant, process or substance
 - **Engineering controls**, such as mechanical or electrical devices.
3. **Use administrative controls**, such as changing the way the work is done.
4. **Provide appropriate personal protective equipment.**
5. All contractors should be briefed on the SWMS before commencing work. Ensure all contractors know that work is to immediately stop if the SWMS is not being followed.
6. Observe work being carried out. If controls are not adequate, stop the work, review the SWMS, adjust as required and re-brief the team.
7. Retain this SWMS for the duration of the high-risk work.

Quality assurance/Quality control plan

This section includes requirements for the implementation of the Alashrafy Interior's quality assurance and quality control program.

Site investigation and control

A. Alashrafy Interiors shall check and verify all dimensions and conditions in the field continuously during construction. Alashrafy Interiors shall be solely responsible for any inaccuracies built into the Work due to Alashrafy Interiors's (including subcontractors) failure to comply with this requirement.

B. Alashrafy Interiors shall inspect related and appurtenant Work and report in writing to the Owner's Representative any conditions that will prevent proper completion of the Work. Failure to report and such conditions shall constitute acceptance of all Site conditions, and any required removal, repair, or replacement caused by unsuitable conditions shall be performed by the Alashrafy Interiors solely and entirely at Alashrafy Interiors's expense.

Inspection of the work

A. All work performed by the Alashrafy Interiors and subcontractors shall be inspected by the Alashrafy Interiors and non-conforming Work and any safety hazards in the work area shall be noted and promptly corrected. Alashrafy Interiors is responsible for the Work to be performed safely and in conformance to the Agreement Documents.

B. The Work shall be conducted under the general observation of the Owner's Representative and is subject to inspection by representatives of the Owner to ensure strict compliance with the requirements of the Agreement Documents. Such inspection may include mill, plant, shop, or field inspection, as required. The Owner's Representative or any inspector(s) shall be permitted access to all parts of the Work, including plants where materials or equipment are manufactured or fabricated.

C. The Alashrafy Interiors shall establish methods for control of Agreement Documents that describe how Drawings and Specifications are received and distributed to assure the correct issue of the document being used. The methods shall also describe how as-built data are documented and furnished to the Owner's Representative.

D. The Alashrafy Interiors shall maintain evidence of activities affecting quality, including operating logs, records of inspections and tests, audit reports, material analyses, personnel qualification and certification records, procedures, and document review records.

E. Quality records shall be maintained in a manner that provides for timely retrieval, and traceability. Quality records shall be protected from deterioration, damage, and destruction. The Alashrafy Interiors shall maintain an automated exceptions list of any nonconforming or defective or substandard work.

F. The Alashrafy Interiors shall provide a list with specific records as specified in the Agreement Documents which will be furnished to the Owner's Representative at the completion of activities and in conjunction with logs and locational drawings.
